Our Little Darlings.

How we miss our little darlings,
In this way we look for them;
We know they are safe in Heaven,
And by angel's wings are borne.

We miss the many playthings
Saturated round about the floor;
Of all, the gladdest voices
At will greet our ears no more.

Has called both of our children,
And then to be his own;
They're singing with the angels,
Thro' round the great white Throne.

They sleeping in the grave-yard
Are the idols of my heart.
In those we love so dearly,
We find our life's support.

Life's Mission.

FRIENDS: Who of us has not
new, revolutions so grand, which
but carried out would help man
and places we live in the world
to be better than the old? The new
has been ushered in, and eighteen
eighty-four is gone; rolled back
departed. How many of our mis-
takes have been unfulfilled
and how many have been
how many and abundant
and as the panoramas of the world
before our mind's eye, we see
the old and the new, the old and
sickness of all things here be-
heart wanderings and longings
of straying, wicked thoughts
and the old and the new, the old
too much in our own feet.

moving away and leaving the
place, where the tears of grief can
be shed, and the heart can visit the
place of that little one. Still
my friend, did you not know how
I am that you visit that place
and see the little one? I am
hence before knowing sorrow
and the beautiful gates again
and waiting for mother; when
I can repeat your tender words
I so loved here, never to know
I. Let us think of her, dear friend,
in the angel land 'mid music
and the angels, and the angels
for our loved and lost, that
reigns supreme that he leaves
to love and care for, and strive
to be a mother to begeth
to his will. We must still be
still have others to care for, as
all are present. Although
we be bruised and bleeding and
we have, have still the hope
and, if God but holds out
leads the way, why need we fear
How around us roll
the clouds of grief and sorrow
from my breaking heart,
from torned all together I be,
and my heart, my heart start,
Thy will, my God, be done.

The President says: "I therefore ask Congress to take suitable action to accept the trust and place it in its secure custody, at the time recording appreciative gratitude of the people of the United States to the donor."

In this connection I may advise Congress by taking such action will be an expression to the almost universal desire of the people of this nation, and I earnestly urge the passage of an act similar to the Senate bill No. 2530 which, while interfering with the constitutional pre-

of appointment, will enable the president in his discretion to nominate General as general on the retired list."
